način obračuna kapitalnog dobitka (ugovori, knjigovodstvene evidencije, pozivanje na odgovarajuće odredbe ugovora o izbegavanju dvostrukog oporezivanja itd).

2 Način obračuna i plaćanja akciza i oslobođenja

Pravilnikom o izmenama i dopunama Pravilnika o načinu obračunavanja i plaćanja akcize, vrsti, sadržini i načinu vodenja evidencija, dostavljanja podataka i sastavljanja obračuna akcize vrši se uglavnom terminološko usklađivanje.

Reguliše se da se akciza ne plaća na otpremu akciznih proizvoda u carinsko skladište pre njihove otpreme van teritorije Republike Srbije. Ako se akcizni proizvodi iz carinskog skladišta ne otpreme van teritorije Republike Srbije, obračun akcize se vrši prilikom otpreme proizvoda iz akciznog skladišta, sem u slučaju kad se proizvodi otpremaju u sopstveni proizvodni pogon radi oplemenjivanja, obrade, dorade ili prerade.

base and manner of calculation of the capital gain (agreements, bookkeeping records, reference to a double taxation treaty etc).

2 The calculation and payment of excise duties and exemptions

The Protocol on the amendments to the Protocol on the calculation and payment of the excise duties, types, content and record keeping, submission of information and computation of the excise duties calculation provides mainly for terminological adjustments.

It is stipulated that the excise duties are not paid on the dispatch of excise products into a customs warehouse before the dispatch of the same products from the territory of the Republic of Serbia. If the excise products are not dispatched from the customs warehouse abroad, the excise duties are calculated in the moment of the dispatch of the excise products from the excise warehouse, except in the case when the products are dispatched into the own production facility for processing or finishing.

The Protocol on amendments to the Protocol concerning the requirements, manner and procedure for excise duties exemption for products sold by the producer, i.e. the importer to diplomatic and consular bodies and international organisations, and for oil derivatives sold on the basis of international agreements provides exclusively for immaterial terminological adjustments.
